

Our Mission

Hopebridge is committed to providing personalized therapy for children and their families impacted by behavioral, physical, social, communication and sensory challenges by building a bridge to help them lead their best lives.

Nurture is in our Nature.

Since 2005, we have been a trusted provider of early intervention therapy services by pediatricians and caregivers across the country. We're proud to maintain the industry's best compliance and technology empowering quality of care, parent involvement and successful outcomes for our patients.

Hopebridge is a preferred provider for most major insurance companies and Medicaid, with opportunities for financial assistance.

Pediatric Therapy for Neurodevelopmental Delays

*Serving children
and families since 2005*

Our 360 Care Services

Applied Behavior Analysis (ABA) Therapy

Our ABA Therapy approach relies on carefully crafted programming to help your child develop essential life skills and nurture positive behavior patterns through evidence-based techniques and step-by-step support.

Speech Therapy*

Our Speech Therapy services are focused on developing your child's communication skills, enabling them to express themselves with confidence and enhancing their overall language development.

Occupational Therapy*

Our Occupational Therapy sessions are designed to foster fine and gross motor skills, guiding your child towards greater independence in their daily activities and promoting improved coordination and sensory processing.

You are a champion for your child and we will supply the tools to make it easier!

Autism Diagnostics

Our team of experienced psychologists is here to provide compassionate support and standardized autism diagnostic testing, addressing any challenges your child may face in navigating complex emotions and behaviors.

School-Readiness

As much as we love all of our children here at Hopebridge, our best days are those in which they transition successfully on to school. We don't take the place of school, but rather, help children adequately prepare for it through peer play, following instructions, group-style learning and our unique *Circle Time Curriculum*.

Caregiver Guidance

We offer dedicated guidance and a wealth of resources to empower parents and caregivers. As part of our commitment to individualized care, Hopebridge designs a customized plan to help each family adapt to the impact of the child's developmental conditions.

Our 1:1 interdisciplinary care model builds foundational skills such as:

- Communication and language
- Social skills
- Self-care skills
- Toileting
- Feeding
- Sensory processing
- Fine motor skills
- Perceptual and cognitive skills
- Decreasing tantrums
- Handwriting
- Consistency at home
- and more!**

Caregivers know their child better than anyone else! Help guide the plan of care by sharing what areas of growth are important within your family or culture.
